

<b>Job Title:</b> Maintenance Technician	<b>Functions:</b> Facility/Equipment Maintenance
<b>Term:</b> Permanent Full Time (40 Hrs/Week)	<b>Reporting To:</b> Husky Production Manager

### ABOUT HUSKY FARM EQUIPMENT LIMITED

Husky manufactures a complete line of liquid waste handling equipment including pumps, spreaders, and drag hose reels. Since our founding in 1960 we have been committed to building a highly skilled group of individuals dedicated to supplying our customers with the best tools for their operation. Now in its third generation of ownership, Husky continues with the same focus on quality staff for the production of quality equipment. We've proven ourselves over the last 60 years and look forward to providing solutions for many years to come. We offer competitive wages and benefits. Join us as we build on our long history of manufacturing excellence!

### WHAT YOU'LL DO

The **Maintenance Technician** position will repair and maintain all mechanical equipment, buildings and machines to ensure systems are in working condition and compliant with all applicable regulations. Duties will include:

- Performing preventative, scheduled, requested and unplanned maintenance & repairs related to the facility, on-site vehicles and manufacturing equipment
- Performing routine inspections and testing on all equipment and systems, detecting and reporting any faulty operation
- Working with Production and Procurement staff to ensure repairs and maintenance tasks are completed with limited production downtime
- Ensuring buildings and equipment meet all safety, security and fire regulations and policies
- Making recommendations for major repairs and purchases to management as needed
- Working with Procurement staff to arrange for and monitor major repairs and maintenance work that is completed by outside contractors
- Completing all administrative tasks associated with maintenance including developing maintenance procedures, developing preventative maintenance schedules, and maintaining maintenance logs
- Performing other duties as assigned by management such as garbage removal, ice control and snow removal

### WHO WE'RE LOOKING FOR

If you meet the requirements below, we'd love to chat with you about joining our team:

- General experience in a variety of fields (electrical, HVAC, plumbing, general construction, mechanical systems or machinery, vehicle maintenance, etc.) and familiar with manufacturing equipment
- Self-motivated, trustworthy, organized & a strong team player
- Strong mechanical aptitude and able to problem solve
- Familiar following and completing internal or manufacturer provided preventative maintenance schedules
- Ability to adapt, prioritize and efficiently complete tasks in a fast-paced environment with minimum supervision
- Reliable, punctual and self-motivated with a keen eye for detail
- Good communication, time management and record-keeping skills
- Proactive and detailed oriented person with a keen eye for repairs and maintenance
